Microsoft Products District-Wide Project

No. 059-12M.1

Prepared for

WASCO Union Elementary School District

Rebecca Smith | 888-764-8888 | Rebecca_Smith@shi.com

November 30, 2011

November 30, 2011

Mr. Fred Brakeman
WASCO Union Elementary School District
c/o Infinity Communications and Consulting, Inc.
1800 30th St., Suite 175
Bakersfield, CA 93301

Dear Mr. Brakeman,

Thank you for your interest in SHI and for the opportunity to participate in WASCO Union Elementary School District's Request for Proposal for **Microsoft Products and Licensing Support**. SHI values your business and we are committed to continuing the level of service and support that WASCO has come to know and expect from SHI.

As one of Microsoft's largest Enterprise Software Advisors and Large Account Resellers, SHI offers a wide range of tools and services that are designed to assist you with the management of your Microsoft Licensing Agreements, your software license assets, and the deployment of those assets throughout your organization. No other Microsoft ESA/LAR has received as many awards from Microsoft in recognition of outstanding license tracking and program management. We have a team of Microsoft Licensing Specialists who are ready to assist you with understanding your agreements and optimizing the benefits associated with enrollment in Microsoft's Licensing Programs.

I appreciate the opportunity to participate in this evaluation. I encourage you to contact our customers and/or visit our headquarters in Somerset, New Jersey or our web site at www.shi.com. If you require additional information or have any additional questions, please contact me at **888-764-8888** or via Email at **Rebecca_Smith@shi.com**. Thank you in advance for your consideration and I look forward to hearing from you.

Sincerely,

Rebecca Smith
Account Executive

LAR Agreement Requirements

The following paragraphs indicate the expected scope of the Microsoft Agreement/Purchase Order and requirements to be carried out by the LAR that is awarded the Microsoft Agreement/Purchase Order. LARs are required to indicate their ability to satisfy the requirements as detailed below:

1. Only proposals from Microsoft Authorized North American Large Account Resellers (LAR) will be considered. The LAR must have a very good relationship with Microsoft.

SHI Response:

SHI is a Gold Premier Partner and Authorized North American LAR with Microsoft.

Microsoft Corporation
1290 Avenue of the Americas

Microsoft*

February 1, 2011

Ms. Thai Lee
President
SHI International, Inc.
33 Knightsbridge Rd
Piscataway, NJ 08854

Dear Ms. Lee:

For your records, SHI International (SHI) is one of Microsoft's largest North American Large Account Resellers (LAR) and Enterprise Software Advisors (ESA), qualifying SHI to offer the Microsoft Select and Enterprise Agreement volume licensing programs in the United States and Canada. SHI has held LAR status since 1993. SHI also qualifies as a Microsoft Authorized Education Reseller (AER), Academic Large Account Reseller (A-LAR), Microsoft Open Value reseller, Get Genuine Windows Reseller, Service Provider License Agreement (SPLA) and Microsoft Charity Open License Reseller (US only). In addition, SHI is eligible to offer Microsoft Open License agreements and Full Packaged Products (FPP), however, resale of Open License and Full Packaged Products does not require specific authorization.

SHI is competent and experienced in all of our licensing programs. SHI may offer any of the above referenced programs to a customer that meets the program criteria and guidelines for the purchase of Microsoft software. This authorization is granted at Microsoft's discretion and can be revoked at any time.

If you should need any further clarification on any of the aforementioned programs, please do not hesitate to contact me; 631-543-2042.

Sincerely,

John DeMartino
National Business Development Manager
US Reseller Sales
Microsoft Corporation

Microsoft Corporation is an equal opportunity employer.

- 2. The LAR will provide Microsoft software products and related LAR services for the Microsoft Software License Agreement to the Owner and Authorized Users.in place as needed. Participants will subscribe to a product baseline (i.e. desktop SKU with Core CAL for faculty/staff) with the option to a variety of other products.**

SHI Response:

SHI understands and will comply.

- 3. The LAR will be required to work closely with the Owner and ensure the required documentation is in place as needed. Participants will subscribe to a produce baseline (i.e. desktop SKU with Core CAL for faculty/staff) with the option to a variety of other products.**

SHI Response:

SHI understands and will comply.

No other Microsoft LAR dedicates as many resources to assisting our customers with managing their Microsoft EES Agreements. All of these resources are available both to you and your account team to provide support and answer any of your Microsoft questions.

Microsoft Licensing Executives—are available to assist your organization with understanding your current agreements, assisting you with negotiating the renewals, analyzing program options, understanding SA Benefits, answering contract questions, and answering questions regarding product use rights and licensing.

Microsoft Support & Contracts Team—are responsible for answering customer program and product questions; for processing customer agreements and ensuring that the agreements are completed correctly before submission to Microsoft; and for processing change of address forms and CD change forms.

Operations Team—are responsible for processing our customers' orders with Microsoft, responding to ordering questions, linking the customer agreement numbers to the customer account keys for accurate order entry, responding to accounting issues, and for processing credits and adjustments as needed.

Marketing—provide assistance with obtaining evaluation software, introduction of new Microsoft products, and creating marketing pieces and promotions for Microsoft products and agreements.

Product Champions—main points of contact for product questions, licensing questions for specific products, and creating marketing pieces for specific Microsoft products. They specialize in product roadmaps for all major Microsoft product lines and provide assistance with real time collaboration, developer tools and servers, desktop applications and systems, security solutions, and on-line services.

Software Assurance Product Champions—provides direct customer support for activation and utilization of your SA Benefits. They will assist WASCO SCHOOL DISTRICT with realizing every dollar of potential savings from your SA Benefits.

- 4. The LAR will be required to execute the numerous enrollment options available from Microsoft. The LAR is required to thoroughly review the provisions of the Microsoft Agreement, submit an executed Enrollment Agreement and obtain an Enrollment Number, prior to placing orders under this contract.**

SHI Response:

SHI understands and will comply.

- 5. The LAR will provide all sales, support, management and reporting services required to process and account for "Authorized User" requests for Microsoft software products and LAR services under the applicable Microsoft Software License Agreement.**

SHI Response:

SHI understands and will comply.

License Program Management

SHI has established itself as the most effective license provider in the industry. Our software procurement consulting services combined with robust Software Asset Management (SAM) tools make it easy for WASCO SCHOOL DISTRICT to choose the licensing programs that are right for you and to effectively manage them.

Detailed & Accurate License Tracking:

Our tracking abilities will relieve your burden of managing your purchases. We understand that without the processes and checks and balances that we have in place, the opportunity for error in tracking license purchases is tremendous. SHI's license tracking system and workflow have been automated to enforce purchasing rules and to minimize errors.

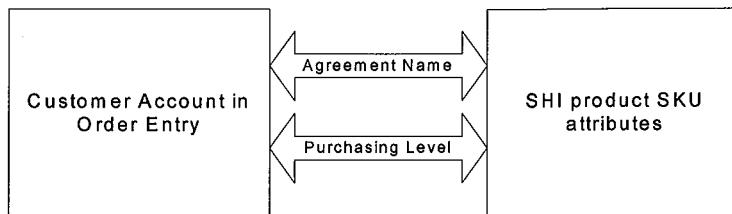

The process begins with the creation of part numbers within SHI's system. Each of SHI's SKU numbers have various attributes associated with them—among them are Product Type, Manufacturer Name, Program Name, Program Level, and Pool. These attributes trigger the license purchase process within our order entry system. So, our system knows that products that have Types of "License Only", "Maintenance Only", or "License with Maintenance" are non-deliverable items. In addition, each SKU is identified according the manufacturer name, Licensing Program name, Purchasing Level, and Pool, as applicable. An example is Manufacturer=Microsoft Select, Licensing Program=Select, Purchasing Level=D, Pool=Systems. The price for this SHI SKU will always reflect the current price for the product purchased under the Microsoft Select license at purchasing level D.

The next step within the process is to identify those customers within our order entry system who have License Agreements. Once the contract has been processed with the manufacturer, the SHI Licensing Representatives link the customer's account key in SHI's order entry system to the appropriate licensing agreements, including the contract number, enrollment number, purchasing level, the anniversary dates, and the maintenance dates. The customer's Account Executive works with the Licensing Representatives

to ensure that all contract data is accurate. By identifying this information at the account level, SHI ensures the accuracy of our data capture and reporting to both the customer and the Software Publisher.

Once those steps have been completed, your SHI Inside Account Manager (IAM) can process orders within SHI's systems. Using the data described above, SHI's order entry system compares the customer account to the SHI SKU and validates that the order is being entered correctly.

Once the order entry system has verified the data, it will present the IAM with the appropriate agreement and enrollment numbers for that customer. The IAM simply selects the correct agreement and enrollment, eliminating the opportunity for a data entry error. In addition, the system will populate the appropriate price for the customer's purchasing level, again eliminating the possibility for invoice errors.

Additionally, **Maintenance Expiration Dates** are tracked, to give prompt, pro-active notification to WASCO SCHOOL DISTRICT for **Maintenance Renewal** purposes. SHI supports and can track Maintenance Programs that have co-terminus expiration and are pro-rated, or non co-terminus programs. Maintenance Tracking and Renewal Notification is implemented for all Programs or Maintenance purchases made through SHI, whether supported by a Volume License Program, or other maintenance program.

- 6. The LAR will act as the primary liaison with the Owner and participating members and therefore will assign a dedicated sales team specific to the Owner including representatives residing in CA, telepresence team members available within CA business hours, and Microsoft Licensing and Technical specialists. It is required that members of this team be thoroughly trained and experienced in the requirements and processes related to Microsoft consortia agreements, academic licensing programs, related software assurance benefits, and Microsoft products and solutions.**

SHI Response:

SHI understands and will comply.

Dedicated WASCO SCHOOL DISTRICT Account Team

SHI has established the dedicated Account Team approach as core in executing an effective customer service strategy. SHI customizes the team structure to meet the individual needs of each of our customers. The following positions would be included in direct support for WASCO SCHOOL DISTRICT:

Sr. Director of Public Sector Sales: Katie O'Kane—Senior level sales position that will coordinate and execute the terms and conditions of a centrally negotiated agreement with the satellite locations serviced by the SHI Local Account Teams.

Account Executive: Rebecca Smith—Direct sales related position with a mission of developing relationships with the appropriate representatives within WASCO SCHOOL DISTRICT. Responsibilities include establishing a customized service and support plan, resolving licensing issues, and constructing a pricing strategy and other topics critical to account development.

Microsoft Licensing Executive: Lisa Levin— available to assist your organization with understanding your current agreements, assisting you with negotiating the renewals, analyzing program options, answering contract questions, and answering questions regarding product use rights and licensing.

Manager, Inside Sales Support: Terrence Bridgers—Coordinates, maintains, and manages the activities of the IAMs.

Inside Account Managers (IAM): Jay Martell, Chris Luijness, and Jeffrey Bjerke—Maintain direct relationship with the customer and have the responsibility of ensuring customer satisfaction. Functional areas such as pricing, availability, order entry, tracking, returns, product information, and expedites are an integral part of their daily activities. They execute the plan established by the Account Executive for a customer.

- 7. The LAR will be responsible for servicing and administering each enrollment underneath the agreement, ensuring prompt processing of all enrollment forms, and ensuring each enrollment is properly placed against the Microsoft Software License Agreement.**

SHI Response:

SHI understands and will comply.

- 8. The LAR will provide requested written and/or oral contract quotations to Authorized Users which is to include at a minimum:
 - a. Microsoft Product Number
 - b. Microsoft Product Name
 - c. Quantity
 - d. Price**

SHI Response:

SHI understands and will comply. At SHI, your IAM will respond to quote requests within 4 business hours.

- 9. The LAR will promptly report all orders to Microsoft in accordance with the provisions in the applicable agreement.**

SHI Response:

SHI understands and will comply. SHI's Microsoft Operations Team will report all orders to Microsoft in accordance with the provisions in the applicable agreement.

10. The LAR will generate and issue electronic and paper copy "Order Confirmation Reports" for each software product (i.e. license and/or maintenance) ordered by the Owner and other authorized users. This report will be issued for purchases, including those orders that may be aggregated on a single purchase order document, and provided to authorized users within 15 days after request and should include, at a minimum:

- a. The name of Authorized User (ordering entity)**
- b. Authorized User's purchase order number to LAR**
- c. Microsoft Master Agreement Number**
- d. Microsoft Enrollment Number**
- e. Microsoft product number and quantity ordered**
- f. Microsoft product description (Software language and/or version number)**

SHI Response:

SHI understands and agrees to provide these reports.

SHI prides itself on its reporting excellence and flexibility. We have developed standard reports that meet the needs of most of our customers. If WASCO SCHOOL DISTRICT has additional reporting requirements, SHI will develop custom reports, as we have for some of our largest customers. SHI never charges for the reports we provide, both standard and custom.

SHI fully understands your need for flexibility in reporting, as well as your need for reports from the highest organizational level to the most granular. We have created our databases to remain flexible enough to be able to incorporate any organizational structure and to provide reports on any level within the organization. We begin with the most granular reporting level, this can be by division or by bill to or by another criterion specified by WASCO SCHOOL DISTRICT. SHI then groups the ordering units into the next level within your organization. The entities within that level will be grouped to form the next reporting level, and so on until we reach the enterprise-wide level. In addition to providing reports based on the organizational levels within WASCO SCHOOL DISTRICT, SHI also provides reports based on any combination.

The following lists the standard fields that are available in a detailed report:

Customer Name	Manufacturer Name	Manufacturer Part Number
Product Description	Version	Operating System
Media	Language	Product Type
License Program	License Pool	License Level
License Point Value	Maintenance Term	Maintenance Time Remaining
UNSPSC Number	UNSPSC Segment	UNSPSC Family
UNSPSC Class	UNSPSC Commodity	Order Date
SHI Order Number	Invoice Number	Ship Date
SHI Part Number	Quantity	Unit Price
Extended Price	Customer PO	Ship to Company
Ship to Address	Ship to City	Ship to State
Ship to Zip Code		

SHI's reports are available on a quarterly and monthly basis, as well as ad hoc—you choose the timeframe.

11. The LAR must provide and support a website for Microsoft Electronic Software Distribution Program (ESD) for each participating school for purposes of electronic software distribution.

SHI Response:

SHI understands and will comply.

SHI provides two options for our customers to receive their software packages electronically.

Electronic Media Fulfillment – This “pull technology” will allow customers to receive the data required to feed into their internal electronic software distribution servers or to create their own CD’s. This service is available for major licensing programs, including Microsoft Select, IBM/Lotus Passport Advantage, and others.

SHI can make files available on the server as CD Images, or as Compressed File archives. These can be used to burn a CD at the customer site, or to load a customer’s internal servers or software distribution systems.

Benefits of SHI’s Media Fulfillment Service include:

- ⇒ Assistance for internal company support or site administrators in acquiring the media to fulfill licensing programs. This should reduce or eliminate the need for multiple CD subscriptions to support satellite offices for your Volume Licensing Programs.
- ⇒ A fully electronic licensing transaction
- ⇒ Security provided with customer specific user names and passwords for the Electronic Licensing Fulfillment Servers. These usernames and passwords will allow the user to see and access only those products that are covered by the licensing programs in which they are enrolled.

Electronic Application Distribution (EAD)—This “push technology” allows us to integrate with your IT Organization and come up with a process that delivers the product directly to an end-user. This offering sends a secure download key for a specific product so the end-user is not presented with any options.

Recent developments in technology and the business environment have made the ability to purchase software through an electronic delivery mechanism increasingly attractive. Your company can enjoy a tremendous reduction in costs by eliminating expenses associated with shipping, receiving, and delivery.

Features Include:

- ⇒ **Streamlined Process**—SHI has made the process as simple as possible. A member of your Account Team enables the download and an email is automatically sent to the user who requested the download. Clicking one of the links in the email brings up a browser on the customer’s computer that navigates to the user-friendly download page.
- ⇒ **Extendable Library**—SHI can provide a wide range of products for download, which can be extended based on the needs of your organization. We can also provide alternate versions of a software download comprised of several smaller files so that downloads will still be successful through slower or unreliable network connections.

- ⇒ **Installation Help**—SHI is able to provide your organization with the help necessary to install the downloaded files. If special tools are required for installation, we can assist with the acquisition and use of those tools.
- ⇒ **Multiple Server Support**—In order to provide the greatest possible capacity and availability while minimizing bandwidth impact, our system is distributed over multiple servers.
- ⇒ **Download Tracking**—Through the use of our Electronic Download Module, we can provide comprehensive records for the deployment of each piece of software, and deliver those records to you periodically.
- ⇒ **Accounting**—The system captures information such as the downloader's department and cost center. The accounting information can be automatically sent to your organization in a format that can be imported into various systems.
- ⇒ **Customizable and Configurable**—The Electronic Delivery Module is flexible and adaptable to your organization's different purchasing needs and requirements.
- ⇒ **Server Infrastructure**—Depending on your usage needs and geography, a SHI-based download server can be employed. A download server can be placed inside your organization's network DMZ (Demilitarized Zone) or multiple servers can be placed at various customer sites.
- ⇒ **Library Content**—Internal applications that are specific to your organization can also be hosted on SHI Electronic Delivery servers.
- ⇒ **Registration Codes**—When a download requires a registration code for installation, the SHI Electronic Delivery Module can track an enterprise's registration code for each product and present it to the user when downloading the package.
- ⇒ **Authentication Methods**—SHI authenticates the identity of each user to protect your organization. The system supports a number of authentication methods that include passwords, standard client certificates, PKI certificates, and the use of Microsoft Passport

12. The LAR must provide and support the electronic software distribution program for students, faculty, and staff in support of Student Option, Work at Home Rights, and Home Use Program.

SHI Response:

SHI understands and will comply.

Active and Inactive Reference Templates

Vendor Name: SHI International Corp.

Contractor shall provide information on at least one (1) and preferably a minimum of three (3) ACTIVE contracts within the last three years similar in size, scope, and technical complexity to the Scope of Work of this RFP. The contact should be someone who can confirm the actual quality and technical capability of the Contractor's completed work- not the procurement officer

3.3.1.1 ACTIVE CONTRACT REFERENCE 1

Name of Client:	Arvin Union School District
Name of Contact:	Loyal Anderson
Address:	737 Bear Mountain Blvd, Arvin, CA 93203
Phone Number:	661-903-6524
Annual Dollar Value of Contract:	\$12,000
Start Date:	2/25/11
Completion Date:	2/25/2014
Description of Service	3 Year Microsoft EES Contract
Justification of Similar Size and Scope	

3.3.1.2 ACTIVE CONTRACT REFERENCE 2

Name of Client:	Livingston Board of Education
Name of Contact:	
Address:	11 Foxcroft Drive, Livingston, NJ 07830
Phone Number:	973-535-8000
Annual Dollar Value of Contract:	\$34500
Start Date:	July 1, 2010
Completion Date:	June 31, 2011
Description of Service	566 FTE Desktop Bundle w/ Ent Cal
Justification of Similar Size and Scope	

3.3.1.3 ACTIVE CONTRACT REFERENCE 3

Name of Client:	Cherry Creek School District
Name of Contact:	Jason Koenig
Address:	5416 S. Riveria Way, Centennial, CO 80015
Phone Number:	720-554-5595
Annual Dollar Value of Contract:	\$250k
Start Date:	May 2010
Completion Date:	June 2011
Description of Service	SHI won the Cherry Creek School District Microsoft Campus bid May
Justification of Similar Size and Scope	SHI was also awarded the Microsoft EES Agreement July 2011 thru June 2012. Recently Cherry Creek moved their Select Agreement from Insight to SHI due to the level of customer service we've demonstrated over the years. SHI also maintains Cherry Creeks' Adobe CLP Licenses.

3.3.2 Inactive References

SHI Response:

SHI has never lost a contract with any of our largest customers. While there are thousands of SHI customers, it is the top 30 that represent about 80% of SHI total revenue, about another 70 that represent 10% of SHI total revenue and then thousands that make up the remaining 10%. For these largest customers, performance and increase/decline of sales are monitored and tracked directly by SHI upper management. While it is possible that any of the other thousands of SHI customers have stopped doing business with us at some point, outside of the top 100 SHI customers, that event would not be specifically recorded or reported to management. For this reason, we do not have a list of former customers and are therefore unable to provide contact names to you.
