

RESOLUTION OF THE GOVERNING BOARD
OF THE WASCO UNION ELEMENTARY SCHOOL DISTRICT

**AWARD OF SOFTWARE CONTRACT AND
PIGGYBACKING DESIGNATION**

Resolution No. 1112-4

WHEREAS, the District wishes to purchase Microsoft software licenses for use by the District and Staff and to receive support in the use and service of these software licenses; and

WHEREAS, the District wished to receive pricing for all software licenses available under Microsoft's Enrollment for Education Solutions; and

WHEREAS, due to the highly specialized and unique nature of software and software services, it is in the District's best interest to evaluate the software for other than price, and to include a vendor's experience, qualifications, and service, among other factors; and

WHEREAS, the District is entitled to consider these factors for software licenses and services, pursuant to Public Contract Code section 20118.2; and

WHEREAS, the District elected to use the vendor selection process allowed under Public Contract Code section 20118.2 and prepared a Request for Proposal, notice of which was published pursuant to the Public Contract Code; and

WHEREAS, the District received two responsive proposals to its RFP and evaluated said proposals pursuant to the evaluation criteria found in the Request for Proposal; and

WHEREAS, although the District found both vendors submitting said proposals to be well-qualified, the District recommended the award of the RFP to vendor SHI, Inc., both because of lower prices and because it better satisfied the evaluation criteria found in the RFP; and

WHEREAS, the District wished to provide other school districts the advantage of purchasing software licenses without undergoing the burdens of a software Request for Proposal process; and

WHEREAS, software licenses are goods that can be purchased through a piggyback process, pursuant to Public Contract Code section 20118, and the District designated this RFP as one that can be piggybacked.

NOW THEREFORE, BE IT RESOLVED that the Board selects SHI, Inc. as its vendor for the acquisition of Microsoft Enrollment for Education Solutions, a listing of said licenses which is attached hereto as Exhibit "A", and authorizes a contract between it and the District.

BE IT FURTHER RESOLVED, that other school districts in the State of California may use this contract as the basis of their own acquisition of software licenses, pursuant to Public

Contract Code section 20118, popularly known as the piggybacking statute, and that District staff may assist other school districts in this process by providing them with copies of this resolution and such other documents as they may require.
